

Academic Publications

2010

- Komduur R., From Health to Nutrigenomics: Visions of Stakeholders on the Gap between Assumptions in Research and Development and Everyday Life, in progress, beogde tijdschrift: *New Genetics and Society* (yet to be published)
- Komduur R., Te Molder H., The Role of Genes in Discussions about Overweight: an Analysis of Talk on Genetics, Overweight and Health Risks, under review in *Public Understanding of Science* (yet to be published)

2009

- De Vrieze J., Bouwman L., Komduur R., Pin R., Ronteltap A., Vandeberg R., Van Dam F., Pender P., [Nutrition tailored to the individual? Not just yet. Realigning nutrigenomic science with contemporary society](#), *Journal of Nutrigenetics and Nutrigenomics* 2009; 2: 184-188
- Korthals M., Komduur R., [Uncertainties of Nutrigenomics and Their Ethical Meaning](#), *Journal of Agriculture and Environmental Ethics*, 3 december 2009
- Komduur, R., Korthals, M, Te Molder, H. (2009) [The good life: living for health and a life without risks? On a prominent script of nutrigenomics](#), *British Journal of Nutrition*, 101, pp 307-316

2007

- Komduur, R., Te Molder, H., Korthals, M, *The role of genes in discussions about overweight*, paper for Corsage Winter Meeting 2007

2006

- Padmos H, Mazeland H, Te Molder H. [On doing being personal: Citizen talk as an identity-suspending device in public debates on GMOs](#). In: H. Hausendorf & A. Bora (Eds.), *Analysing Citizenship Talk: Social Positioning in Political and Legal Decision-making Procedures*, (2006): pp. 276-295. Amsterdam: John Benjamins.

Academic Lectures

2008

- Komduur R., Te Molder H.: The Role of Genes in Discussion about Overweight: an Analysis of Talk on Genetics, Overweight and Health Risks, 4S-EASST conference, August 2008 Rotterdam
- Komduur R.: The role of genes in discussion about overweight, Mansholt PhD Day, May 2008
- Komduur R., Te Molder H.: Prevention and Nutrigenomics: an Analysis of Talk on Genetics, Overweight and Health Risks, CESAGEN/CSG April 2008 Amsterdam

2007

- Komduur, R.: Ethics of nutrigenomics for food choices: China Meets Wageningen and Applied Philosophy, chair and lecturer, NWO/MSG workshop Chinese Genomics Researchers, 1 November 2007
- Komduur R.: Poster: The Good Life with Nutrigenomics: Living for Health or Health for Living? Genomics Researchers Event, November 2007 Amsterdam
- Komduur R.: Ethics of personalized Nutrition, London, Genomics and Society, ESRC Genomics Network, 26 October 2007.
- Komduur, R.: The good life: health for life or living for health: On normal assumptions of nutrigenomics, London, Genomics and Society, ESRC Genomics Network, 26 October 2007
- Komduur R.: Poster: The Good Life with Nutrigenomics: Living for Health or Health for Living? ESRC, October 2007, London
- Komduur, R., Korthals, M.: Ethics of Personalized Nutrition, NUGO workshop Personalized Nutrition, Lund University, 17 August 2007
- Komduur R., Korthals M., Te Molder H.: Good Life with Nutrigenomics: Living for Health or Health for Living? CESAGEN/ CSG, April 2007 London
- Komduur, R.: Creating a basis for deliberation: Analyzing the nutrigenomics script, 4th International Conference - Genomics and Society - Retrospects and Prospects, 28 march 2007
- Komduur R., Te Molder H, Korthals, M.: 'The Role of Genes in Discussions about Overweight', Corsage Winter Meeting 2007

2006

- Komduur, R.: Ethical deliberation about nutrigenomics. Department of Philosophy, Faculty of Arts, University of Ottawa, 10 November 2006.
- Komduur, R., Korthals, M.: Ethical Impacts of Uncertainties of Nutrigenomics. 10th International Conference on Agricultural Biotechnology: Facts, Analysis and Policies. Ravello, 30 June 2006.
- Komduur R.: Genomics Based Personalized Nutrition: How to Handle Uncertainties', CESAGEN/CSG, Third international conference: Genomics & Society: towards a social robust science? 20-21 April 2006 Amsterdam

Societal Publications

2009

- Meerstadt, M., (2009) "[Eten gaat om meer dan alleen gezondheid.](#)" Interview in Resource weekblad voor Wageningen UR, 29 januari 2009

2005

- Boto, A., (2005) "[Los genes guiarán la dieta, La nutrigenómica estudia el complejo laberinto de interacciones entre los alimentos y el ADN](#)", interview in El País, 16 april 2005
- Komduur R., (2005) "[Een hogere kans op obesitas: Wat nu?](#)" allesoverDNA.nl november 2005

Societal Lectures

2009

- Komduur, R.: Gezond Leven, Leven voor gezondheid, Symposium Genootschap voor Culinaire Filosofie, 5 september 2009

2007

- Komduur, R.: Ethics of personalized nutrition. Presentation Buffet Pensant, Wageningen Hotel De Wereld, november 2007
- Komduur, R.: Ethics of personalized nutrition. Presentation Philosophy is cooking BuffetPensant, Junushof, Wageningen, november 2007
